TITLE

Citizen orientation of automated information systems **Kling, R** 215
Computer use in personnel administration **Westin, A** 95
Computer models in the policy-making process **Dutton, W** 86
Corporate electronic funds transfer: increasing the stakes **Greguras, F** 135
Electronic funds transfer and national security **Parker, D** 19
Electronic funds transfer: the legal issues **Greguras, F and Einhorn, T** 200
European Parliament report on data processing and the rights of the individual **Sieglerschmidt, H** 170
Future of computer security **Parker, D** 15
How to recognize the computer criminal **Bloombecker, J** 194
Managing information as a corporate resource **Sizer, D** 79
New technologies and the protection of civil liberties **Steinmüller, W** 226
Personnel practices in the US Civil Service **Westin, A** 149
Privacy issues in personnel administration **Westin, A** 5
Protecting electronic money **Linden, C and Block, H** 224
Public good versus public harm potential of computers **Lobel, J** 75
Quantifying security risks and safeguards: an actuarial approach **Wong, K** 207
Social analyses of computing **Kling, R** 25
User preparation for compliance with forthcoming UK data-protection legislation **Sauvarin, P T** 69
Vulnerability of computer centres **Wong, K** 138
What is computer security? **Waring, L P** 142
Word processing: facilitator or frustrator? **Medina, B** 131
Younger, Lindop and the microprocessor **Samet, P** 67

SUBJECT

Business

Computer use in personnel administration **Westin, A** 95
Managing information as a corporate resource **Sizer, D** 79
Privacy issues in personnel administration **Westin, A** 5
Personnel practices in the US Civil Service **Westin, A** 149

Calendar 64, 128, 192, 256

Conferences

Data Protection Conference 58
Information technology— impact on the way of life 115

Correspondence

Keys 64
Privacy and confidentiality 117

Electronic funds transfer

Corporate electronic funds transfer: increasing the stakes **Greguras, F** 135
Electronic funds transfer and national security **Parker, D** 19
Electronic funds transfer: the legal issues **Greguras, F and Einhorn, T** 200

Information systems

Airport viewdata 254
Business information database 186
Car dealer system 125
Communicating word processor 125
Computer users' group 254
Credit card checking 254
Databank of hazardous chemicals 186
Data management software 186
Document viewing service 124
Economics database 124
Flight information 61
Hotel booking service 255
Hotel management/accounting 125
Information management system 61
Library system 187
Marketing database 255
Multiplexed PBX systems 125
Networking for Royal Navy 187
Personal ID system 254
Private viewdata system 61
Satellite project 124
Viewdata interconnection 61
Video teaching system 187
Videotex system for farmers 124

International review

1982 — Information Technology Year in the UK 56
News from Australia 244
News from USA 241

Legislation

European Parliament report on data processing and the rights of the individual **Sieglerschmidt, H** 170
User preparation for compliance with forthcoming UK data-protection legislation **Sauvarin, P T** 69
Younger, Lindop and the microprocessor **Samet, P** 67

Market forecasts

Advertising, marketing and the new European media 120
Business computer graphics in Europe 250
Cable systems 183
Computer-based electronic mail 184
Consumer medical electronics 122
Copier equipment and supplies market in the US 185
Data, text and voice encryption 120
Electronic funds transfer in Europe 121
Electronics in supermarkets 249
Home security — the impact of cable TV 248
ID products and markets 123
Industrial security, fire and energy systems markets in Europe 249
Microcomputers and videodiscs in educational markets 248
Micrographics in the office: market prospects 185
Office consumables and the automated office 250
Programming and strategies for two-way TV and viewdata systems — the telephone versus cable TV 60
Security systems in Europe 122
The outlook for electronic newspapers 60
The robot market explosion 251
Videotex and the banking biz 184
Western European robotics 182

Office technology

Automated hospital 253
Automated legal practice systems 62
Electronic mail 252
Electronic mail service 190
Electronic office 252
Facsimile transceiver 190
File compression 190
Office automation 191
Office automation pilot project 253
Office management 191
Payroll system 62
Portable information retrieval 126
Security for CICS monitors 126
Shared-resource systems 191
Society system 62
Stock exchange system 126
Telephone directory system 126
Telex/accounting system for bank 191
Telex/display terminal 252
Transactional videotex 62
Typescript reader 62
Typewriter/printer 62
Word processing: facilitator or frustrator? **Medina, B** 131

Regulation

Domestic services from IRCs 127
Information technology standards 127
Interpol open files 127
Wider access to Canadian satellite 127

Security

Data encryption 63
Encryption/decryption devices 189
Future of computer security **Parker, D** 15
How to recognize the computer criminal **Bloombecker, J** 194
Magnetic stripe/reader/encoder 188
Personal ID system 189
Printout shredder 63
Protecting electronic money **Linden, C and Block, H** 224
Quantifying security risks and safeguards: an actuarial approach **Wong, K** 207
Security/time recording 188
Support urged for privacy guidelines 63
Swipe scanner 63
System security software 63
Vulnerability of computer centres **Wong, K** 138
What is computer security? **Waring, L P** 142

Social issues

Citizen orientation of automated information systems **Kling, R** 215
Computer models in the policy-making process **Dutton, W** 86
New technologies and the protection of civil liberties **Steinmüller, W** 226
Public good versus public harm potential of computers **Lobel, J** 75
Social analyses of computing **Kling, R** 25
